

Hong Kong Deposit Protection Board
“Deposit Protection Cup Challenge” Video Series

Episode 1

Narrator: The Guardian of Deposits Ah Po
has launched the Deposit Protection Cup Challenge
To win this trophy
challengers must overcome every obstacle, give it their all
and prove that they have a steady mindset and the determination to improve
they are also familiar with the protection limit under the Deposit Protection
Scheme of HK\$800,000
Can this challenger complete all the challenges
and become the first person to lift the Deposit Protection Cup trophy?

SUPER: “Deposit Protection Cup” Challenge

Narrator: Welcome, our contestant, George
May I ask whether you have a habit of saving money?

George: Yes

Narrator: So do I
Would you like to take home the Deposit Protection Cup trophy?

George: Yes

Narrator: Then we’ll have to see how familiar you are
with the Deposit Protection Scheme
Are you confident?

George: Of course I am
I’m here to win the Deposit Protection Cup trophy
I’m ready anytime

Narrator: The first challenge is related to HK\$800,000
It tests your accuracy

George: OK

SUPER: Game Rules
Round 1 – “Secure Deposit Target Grid”

Narrator: There is a nine-square football target board on the field
There are two squares each worth 50,000 points, 100,000 points
200,000 points and 400,000 points
plus one centre square worth 800,000 points
George has five chances to kick the football into the target squares
and score points
He wins by scoring 800,000 points within the time limit
Don’t think it will be easy
Along the way, you will need to draw action cards
which may give you a chance or a challenge
It’s going to be exciting
George, are you ready?

George: It’s only kicking a ball
Maybe I’ll hit the 800,000-point square with my first kick

Narrator: Alright, let’s go

George: So close

Narrator: It’s not that easy
Here, you have a chance to draw a challenge card

George: May luck be on my side and give me a chance card
Let’s redraw

Narrator: Congratulations
You have drawn: Wear flippers throughout the game

George: I've worn flippers before, but never for playing football
Alright, let's do this

Narrator: With flippers on, you're sure to make a splash
Are you ready for the second kick?

George: Yes

Narrator: Start! Wow!

George: Was that 400,000?

Narrator: It just missed the 400,000-point square brushing past the post
It's difficult, isn't it?

George: Yes

Narrator: Never mind
You have another chance to draw a card

George: Yes! An automatic bonus of 100,000 points

Narrator: Wow! You have drawn a chance card
Time for the third kick
let's go

George: A powerful shot
it hit the post

Narrator: You just missed by a small margin
One more shot and you'll get it
Come on! Draw another card
Let's see whether you can get something better

George: This one?

Yes! Remove the challenge

Narrator: You can take off the flippers
and unleash your true ability

George: Great

Narrator: George, it's the fourth kick
Good luck

George: 400,000

SUPER: He finally scores!

Narrator: How long have you been hiding your true skills?

George: For a few kicks, I suppose

Narrator: Your final chance is coming up
This is the card you drew
Here we go

George: Spin around three times

Narrator: If you just kick normally, it would be too easy
It's more entertaining with a little difficulty

George: Spin around?

Narrator: Yes

George: Let's do it

Narrator: One...

George: OK

Narrator: The final kick

George: I feel a little dizzy

Narrator: This is your last chance
Which square are you aiming for?

George: The 800,000-point square, of course

Narrator: OK, go for it

SUPER: Sharp-shooter George hits 800,000!

George: Wait a minute

Deposit protection limit: HK\$800,000

SUPER: Round 1 successfully completed

Narrator: Congratulations on completing the challenge
and passing the first round
That was really exciting
It's time to talk about something more relaxing
and catch your breath first, shall we?

George: Sure

Narrator: George, how did you save money when you were young?

George: When I was little, I would save money in piggy banks
I was really happy whenever I took them out to have a look
At my peak, I think I had around ten piggy banks

Narrator: Ten?

That's incredible

Do you still have a saving habit now?

George: I do, but where I save my money is different now
I deposit my money in a bank
because the Deposit Protection Scheme provides every depositor
with protection limit of up to HK\$800,000 per bank
Also, whether your bank deposits are in Hong Kong dollars, Renminbi or
other currencies, they are all protected

Narrator: That's right
Look out for this logo
it means the bank is a member of the Deposit Protection Scheme
and its deposits are protected
Join us again in our next episode for the second challenge
which will test George's knowledge of the Scheme's scope of coverage and
key features
What will make him sweat and get so worked up?
And will he ultimately be able to lift the Deposit Protection Cup trophy?
To find out, stay tuned for Episode 2 of the Deposit Protection Cup Challenge
